Door Height

Manual or Automatic Function? _____

Manual Locks—you must first pull up on the handles to operate the multipoint lock.
Automatic Locks—the multipoints engage on their own when you close the door.
 Automatic version may also have a small roller-like piece located 7-8" above the latch.

Locking Device — *Note: a lock can have shootbolt plus an additional lock type. If this is the case, please make sure to select both types.*

Roller

Tongue

Shootbolt

Hook

Roundbolt

of Locking Points *Count main gear with deadbolt and latch as one.*
